PROFESSIONAL SUMMARY

Computer Science undergraduate with experience in Machine Learning, Full-Stack Development (MERN), and Blockchain development. Skilled in building scalable applications, REST APIs, and data-driven systems with strong foundations in Data Structures and Algorithms.

TECHNICAL SKILLS

Areas: Machine Learning, Backend Development, Full-Stack Web Development, Blockchain Development
Languages: Python • Java • JavaScript • C/C++ • SQL
Frameworks: React.js • Node.js • Express.js • FastAPI
Machine Learning Libraries: NumPy • Pandas • Scikit-learn • Data Analysis • Feature Engineering
Blockchain: Solidity • Web3.js • Rust • Smart Contracts
Backend & Tools: Rest APIs • Git • GitHub • MongoDB • MySQL • VS Code
Core Computer Science: Data Structures & Algorithms • DBMS • OOP • Operating Systems

SOFTWARE PROJECTS

Real Estate Intelligence Platform | Live | GitHub | *Python, Streamlit, Scikit-learn, Machine Learning*

- Developed a data-driven platform to analyze real estate market trends and visualize property insights using interactive dashboards.
- Developed a machine learning model using Scikit-learn to predict property prices based on features such as location, size, and amenities.
- Implemented a recommendation system that suggests suitable properties to users based on their preferences and historical data.

Decentralized Note Application | Live | GitHub | *Solana, Rust, Anchor, Web3.js, React.js, Node.js*

- Built a decentralized note-taking application on the Solana blockchain enabling secure and immutable storage of user notes.
- Implemented smart contract logic to handle note creation, retrieval, and ownership verification on-chain.
- Integrated Web3 wallet authentication for secure user interaction with blockchain transactions.

HackForge – Coding Platform | Live | GitHub | *React.js, Node.js, Express.js, MongoDB, REST APIs*

- Developed a full-stack coding platform using React.js, Node.js, Express.js, and MongoDB enabling users to solve programming problems and collaborate through REST APIs.
- Implemented backend APIs and database systems to manage problem submissions, user progress tracking, and collaborative coding workflows.

EDUCATION

B.Tech | Computer Science | Pranveer Singh Institute of Technology, Kanpur **| CGPA: 8.91 |** 2023 - Present
Senior Secondary (XII), ISC **|** R.P.M Academy, Gorakhpur | **Percentage: 87.11% |** 2021-2022
High School (X), C.B.S.E. **|** Oxford Public School, Gorakhpur **| Percentage: 93.0% |** 2019-2020

TECHNICAL ACHIEVEMENTS

- Solved 500+ Data Structures and Algorithms problems on LeetCode with a contest rating of 1900 **|** LeetCode
- 5★ rating in Problem Solving and Java on HackerRank with 700+ problems solved **|** HackerRank
- Competitive programming profile aggregating coding achievements and problem-solving stats **|** Codolio

CERTIFICATIONS

- **Machine Learning |** Udemy**|** Completed in 2025 **|** Certificate Link
- **Deep Learning |** Udemy**|** Completed in 2026 **|** Certificate Link
- **MERN Stack & Blockchain Development |** CoderArmy **|** Completed in 2024 **|** Certificate Link

LEADERSHIP EXPERIENCE

Technical Co-Head | IGNITIA 2024 – Annual Techno-Cultural Event **|** December 2023 – April 2024

- Led cross-functional teams to organize large-scale technical events, coordinating with faculty and department heads for seamless execution.
- Managed technical operations, event logistics, and participant engagement, ensuring successful execution of multiple technical competitions.
